INSTRUCTIONS FOR NONPUBLIC SCHOOL REGISTRATION (Page 1 & 2)

- Step 1.** If your school has access to the Internet, please submit this data using the web based registration process. The web-based registration process should be available on the Internet by October 15, 2003 on the Federal Programs web page at <http://dese.mo.gov/divimprove/fedprog/>. Use the following steps:
- Under Financial Management Section, select Nonpublic, then web-based Nonpublic Registration Form.
 - Login Page – use authorized representative's user ID and password.
 - Under School Improvement, choose "Nonpublic Registration Form".
- Step 2.** If the nonpublic school uses the paper report, send the completed, signed set of forms to Federal Financial Management, Department of Elementary and Secondary Education, P.O. Box 480, Jefferson City, MO 65102.
- Step 3.** **Deadline for submission: November 15, 2003. Failure to submit the Nonpublic School Registration forms (web-based or paper) to our office by November 15, 2003 will result in the loss of federal program services for your students.**
- Step 4.** The nonpublic school should retain a copy of all economic deprivation data in a confidential file.

DIRECTIONS FOR COMPLETING NONPUBLIC SCHOOL REGISTRATION (Page 1)

Name and Location of Nonpublic School -- List the name and address of your nonpublic school. List the name, telephone number, fax, and e-mail (if available) of nonpublic school principal. List the name and county of the public school district in which your nonpublic school building is physically located.

Federal Program Participation -- Check appropriate box.

Title I Participation -- Check appropriate box.

Yes -- If any of your students intend to participate in Title I services, the nonpublic school must complete enrollment counts and economic deprivation counts by the public school district in which the student resides. Title I, ESEA regulations state that funds to be spent for services to nonpublic school children are determined by the number of economically deprived private school children who **reside** in Title I participating public school buildings.

No -- If none of your students intend to participate in Title I services, the entire enrollment and economic deprivation of the nonpublic school may be reported by the public school district in which the nonpublic school is physically located. Funds to be spent in other Federal Programs are determined by the enrollment counts of private school children.

Select one of the following methods for determining economic deprivation. The public school, after consultation with the nonpublic school, shall have the final authority to decide which method is used.

1. Using the same measure of low income used to count public school children (Free & Reduced Lunch Count). This count may be collected for funding through School Food Services or collected through a survey form.
2. Using the results of a survey that, to the extent possible, protects the identity of families of private school students, and allowing such survey results to be extrapolated if complete actual data are unavailable. This option allows a school to extrapolate the number of low-income private school children from actual data on a representative sample of private school children. The representative sample size should be large enough to reasonably conclude that the poverty estimate is accurate.
3. Applying the low-income percentage of each participating public school attendance area to the number of private school children who reside in that school attendance area.
4. Using an equated measure of low income correlated with the measure of low income used to count public school children.

INSTRUCTIONS FOR NONPUBLIC SCHOOL REGISTRATION (Page 1 & 2)

List the public school district(s) in which students enrolled in this nonpublic school reside. This section contains information about the entire enrollment as of October 1, 2003. This page should contain the total information that is reported on individual Page 2's.

If Title I Participation:

- Public School District Name -- List the name of each public school district in which students of your nonpublic school reside. The enrollment and economic deprivation counts must be listed by public school district of residence.
- Number Of Students Enrolled In Nonpublic School Residing In Public School District -- This number must be listed according to public school district of residence.
- Number of Economically Deprived Nonpublic Students Residing In Public School District -- Economic Deprivation count must be listed by public school district of residence.

If NO Title I Participation:

- Public School District Name -- List all students under the public school district in which the nonpublic school is physically located.
- Number Of Students Enrolled In Nonpublic School -- Enrollment must be listed according to public school district in which nonpublic is physically located.
- Number of Economically Deprived Nonpublic Students -- Economic Deprivation count must be listed by public school district in which nonpublic is physically located.

Certification -- The principal or administrator of the nonpublic school must sign and date page 1.

DIRECTIONS FOR COMPLETING NONPUBLIC SCHOOL REGISTRATION (Page 2)

The nonpublic school must complete a separate Page 2 for each public school district. Page 2 is used to indicate your intention to participate in the Title I program for each public school district listed on Page 1. This data must match enrollment and economic deprivation counts reported on Page 1. The number of students enrolled must be completed according to their grade level. The economic deprivation must be completed by attendance center.

If you need assistance with attendance center boundaries, please contact the public school official. You may find the Nonpublic Data Collection Worksheet (Form 1) helpful in completing this form.
